Why several \$3.00 Nemo Models must be advanced to \$3.50

The reason is obvious when one considers the condition of the market for raw materials. Steels, also cotton fabrics and rubber, are scarce and high. All these materials are essential in making fine corsets and must be of best quality. So the Nemo price must be advanced; or else the famous Nemo quality must be sacrificed, and this the makers will never do.

Until June 30, 1916, therefore, you can get your favorite \$3.00 Nemo here, at the old price.

After that day you will get the same standard-quality Nemo, but the price will be \$3.50—and it will still be a big extra value at the new price.

But if you wish to economize, better get a supply before July 1.
